EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or reasonably suggest the limitations of independent claims 16 and 18, wherein a mathematical relationship is set forth between the posterior state occupancy probabilities, $P(S_t = s | y_1^T) = (\alpha_s^t \beta_s^t) / P(y_1^T)$. *Woodland et al.* teaches adaptation of a word lattice with speaker data, where the word lattice contains information about language model probabilities, but does not disclose or reasonably suggest the form of the posterior state occupancy probabilities set forth by $P(S_t = s | y_1^T) = (\alpha_s^t \beta_s^t) / P(y_1^T)$. While the mathematical relationship is related to Bayes' rule, the prior art of record does not disclose or reasonably suggest the form of the mathematical equation for posterior state occupancy probabilities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
